

# Big Brothers Big Sisters

*Little Moments. Big Magic.™*

## Volunteer Opportunities

### Community-Based Program

Children in this program range from ages 6-15. Spend time each week with a child out in the community. Through this program, you and your Little Brother or Sister can go to the park, watch movies, go to sporting events, go skating, and so much more. Fit your Little into any activity that you think is fun!

### Teen Mother Program

This program is the same as our community-based program, except the Little is a teen mom. These teens need a positive influence, and the extra support of knowing that someone is there to talk, motivate, and be a friend.

### Mentoring Children of Prisoners

This program is the same as our community-based program, except the Little has a parent or guardian who is currently or has been incarcerated.

### Site-Based Program

Spend time with your Little Brother or Sister at their school. In this program, you can go to eat lunch, play games, read, and talk with your Little Brother or Sister. Volunteers can go during their lunch breaks, or spend time with their Little after school.

### Other Opportunities

If you don't have the opportunity to volunteer today, please consider the many other ways you could help make Big Magic!

### Recruitment of volunteers

Allow a Big Brothers Big Sisters staff member to speak to your organization about our volunteer opportunities.

### Share information

Post Big Brothers Big Sisters flyers and brochures at your company, church, civic group, or any other organization.

### Waiting List activities

Host an activity for children waiting for a Big Brother or Sister.
